

Amazing Smiles, PLLC
14090 South West Freeway
Ste. 402
Sugar Land, TX 77478

You're new to our practice (welcome!). Before we get started on your treatment plan, we'd like to share with you our approach to service.

Preventive dentistry is our goal for every patient. It involves the daily care, good nutrition, and periodic check-ups and cleanings that maintain good dental health already achieved. Preventive dentistry may not be where we start with every patient, but it's where we like to finish.

Restorative dentistry is basic repair of the mouth. We mend broken or leaking fillings, build crowns and bridges, fit partial and full dentures, realign your bite. Where necessary, gum disease is treated, or root canal therapy recommended. The prevailing belief behind restorative dentistry is a simple one: you can keep all your teeth for all your life.

Cosmetic dentistry is coming of age with new materials and procedures that make a beautiful smile accessible to everyone. Because our preventive and restorative programs have been so successful, we now have the luxury of considering cosmetic treatment for gaps, chips, and otherwise less-than-perfect smiles.

We provide any and all of these services, depending on your health needs. Again, welcome. We look forward to meeting you.

Very truly yours,

Margaret Allen D.D.S.
